# Linear light fittings for harsh industrial application

LLK 98 LED ... 8.7 W - 27 W /LLK 980.. 18 W - 58 W

## The lighting solution for harsh and wet industrial applications

The linear luminaires series LLK 98 LED for LED tubes as well as the LLK 980../. for fluorescent lamps combines the latest lighting technology with the requirements of a harsh environment. These luminaires are available in 3 lamp length sizes (600/1200/1500 mm).

## Long-term safety

Wet and harsh environment like industrial outdoor applications need high mechanical strength of the enclosure and protective bowl, an efficient gasket system as well as reliable operation.

The LLK 980../. fluorescent types are equipped with a highly-efficient electronic ballast for best performance and safe operation. LLK 98 LED are ready for use with energy-efficient LED-tubes.

In addition, these lamps are featured with high impact strength and excellent chemical and UV resistance. A highly efficient lighting technology ensures long service life and high availability.

## Simple and cost-effective installation

In conjunction with the generously dimensioned terminal compartment, the standard single-ended through-wiring allows a cost-effective installation. The double-sided locking facility with 10 or 20 latch points allows the protective bowl to be hinged on both sides, meaning that the fitting can be mounted on either side.

## Highest efficiency with LED technology and cost savings

The type LLK 98 LED are delivered with complete wiring ready for using the latest LED tube technology. Energy savings up to 60 % is not the only advantage. Life time up to 50.000 h and switching cycles up to 200.000 sustainably reduce the maintenance costs. The constant light output even at low ambient temperatures makes this luminaire the ideal light fitting for harsh industrial low-temperature applications.

## Features

- Special versions with excellent mechanical properties and high resistance against humidity, dust and harsh environmental
- Cost-effective installation due to single-ended through-wiring
- High efficient with LED tubes
- Double-sided safety lock
- High degree of protection IP66
